About ZENITH

HIGH-LEVEL DENTISTRY

ZENITH is a leader in quality dental education, with nearly 11 years of experience and over **2,000 professionals** proudly trained.

Whether you're a recent graduate or a practicing dentist looking to enhance your skills, you'll greatly benefit from our hands-on training. With a high volume of patients, you'll develop technical excellence by learning directly from experienced instructors.

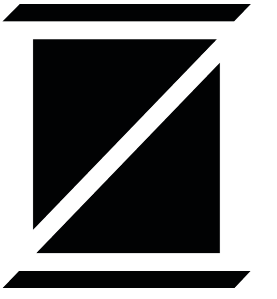

ZENITH is located in Florianópolis, Santa Catarina—affectionately known as the 'Magic Island.' Renowned for its safety, it is one of the most secure cities in Brazil and has the highest Human Development Index (HDI) among all Brazilian capitals. With its breathtaking natural landscapes, the city captivates all who visit.

“We go above and beyond to make **dental education** an **inspiring** and **truly special experience**.”

Dr. Tiago Spezia

Partner and Professor of
the Esthetic Dentistry Program

INTENSIVE IMMERSION IN IMPLANT DENTISTRY

ZENITH's international program offers an intensive, hands-on immersion in modern implant dentistry—designed for dentists aiming to master clinical fundamentals through supervised surgeries and the latest protocols. Led by internationally renowned **Prof. Guilherme Carrilho**, with over 20 years of experience, the program prepares you to deliver **safe, aesthetic, and predictable** results in a thriving market.

Innovation

Contemporary Surgical Techniques in Implant Dentistry.

Knowledge

Didactic and laboratory classes designed to standardize current surgical protocols.

Diagnosis

Discussion of real cases and contemporary surgical treatments.

Practice

Hands-on activities with close supervision, including multiple surgeries performed by participants throughout the course.

INTENSIVE IMMERSION IN **IMPLANT DENTISTRY**

Be part of a unique and immersive educational experience that **solidifies** the **fundamentals of implant dentistry**.

The market is in **full expansion**, and we want you **prepared** to meet this **growing demand!**

IMMERSION SCHEDULE:

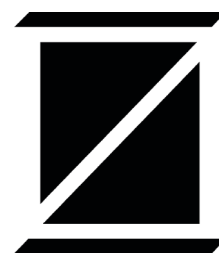

ALL ACTIVITIES SUPERVISED BY OUR EXPERT'S TEAM

○ **Day 1: Foundations & Planning (October 27, 2025)**

- Introduction to Implant Dentistry
- Patient Assessment and Examination: Comprehensive medical and dental history, extraoral and intraoral examinations and prosthetic considerations for implant success.
- Definition and Principles of Osseointegration: Exploring principals of bone quality and volume and implant surfaces.

○ **Day 2: Surgical Planning & Preparation (October 28, 2025)**

- Overview of anatomy for implant dentistry
- Radiographic evaluation and interpretation (bone height, width and vital structures)
- Optimizing Extraction Sites: Techniques for minimally invasive extraction, understanding socket biology and treatment options.
- Alveolar ridge preservation and socket seal options vs immediate implant placement;
- Single tooth vs multiple teeth replacement
- Prosthetically Driven Implant Planning: Achieving ideal 3D implant positioning for optimal prosthetic results.
- The Evolution of Guided Surgery: Understanding different guided surgery techniques for single and full-arch cases.

IMMERSION SCHEDULE:

○ **Day 3: Surgical Execution & Initial Hands-On (October 29, 2025)**

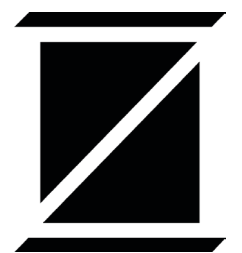

- Principles of aseptic technique in implant surgery
- Comprehensive overview of instruments and materials for implant placement
- Flap design and management
- Osteotomy preparation: drilling sequence and techniques
- Sutures and flap closure
- Pre-operative and post-operative medication protocols
- Hands-on: alveolar ridge preservation, single tooth and Multiple teeth replacement
- Clinical cases

○ **Days 4–9: Surgical Immersion (October 29 – November 6, 2025)**

- Case analysis and discussion
- Hands on-Surgeries

○ **Day 10: Advanced Learning & Conclusion (November 7, 2025)**

- Advanced Case Presentations
- Certificate Ceremony
- Farewell Party and Networking

PROFESSORS:

Dr. **Guilherme Carrilho**

Driven by a passion for implant dentistry, Dr. Carrilho earned his DDS from the renowned University of São Paulo – Bauru Dental School and completed a Residency at the Hospital for Rehabilitation of Maxillofacial Anomalies. His dedication to the field is further evidenced by his board certification in Periodontics (Ribeirão Preto Dental Association) and a Master's in Implant Dentistry (Santo Amaro University). Now, as a Professor at the Implanteperio Institute in São Paulo, he enthusiastically shares his knowledge and shapes the next generation of implant specialists.

Dr. **Cássio Cardona Orth**

Brings a unique and comprehensive skill set to the field, holding specialist certifications in both Oral and Maxillofacial Surgery (OMFS) from ULBRA/RS and Implant Dentistry from the CFO (Brazilian Federal Council of Dentistry). His academic achievements include two Master of Science degrees from SL Mandic/Campinas, one in Implant Dentistry and another in Periodontics. Currently, he is furthering his research as a Doctoral Candidate in Periodontics at UFRGS and shares his extensive knowledge as a Professor at the Implanteperio Institute in São Paulo.

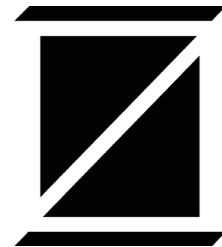

Dr. **Marcelo Rocha**

A distinguished graduate in Dentistry from the Federal University of Santa Catarina, he further specialized in Implant Dentistry at São Leopoldo Mandic University and earned a Master's degree in Periodontics from the University of Guarulhos. With two decades of dedicated clinical practice at Clínica Conecte in Florianópolis, he also contributes significantly to the education of future dental professionals as a Director and Professor in postgraduate programs in Prosthodontics and Implant Dentistry at Zenith Continuing Education.

Dr. **Luciano Andrada**

Holds dental degrees from the Federal University of Santa Catarina in Brazil and the University of Detroit Mercy. He completed his residency in Periodontics and earned a Master of Medical Sciences (MMSc) at the Harvard School of Dental Medicine. Dr. Andrada served as an assistant researcher at The Forsyth Institute and as a Clinical Assistant Professor at the University of Detroit Mercy and has been serving as Assistant Professor and Interim Chair in the Department of Periodontics at Virginia Commonwealth University.
